

ABSTRACT

**BENZENESULPHONATE SALT OF MORPHOLINE UREA DERIVATE FOR
USE AS A CCR-3 ANTOGONIST IN THE TREATMENT OF INFLAMMATORY
CONDITIONS**

Compounds of formula (I):

wherein A⁻ represents the benzenesulphonate (besylate) anion;.

R represents H or C₁₋₆ alkyl; and

n is a number from 0.8 to 2.2 are CCR3 antagonists and are therefore indicated to be useful in therapy are described.
